

# John Cale, Mr. Wilson

I believe you Mr Wilson  
I believe the things you say  
And I'm always thinking of you  
When I hear your music play  
And you know it's true  
That Wales is not like California in any way  
And when I listen to your music  
You're still thousands of miles away  
Take your mixes not your mixture  
Add some music to our day  
Don't believe the things they tell you  
Don't let them get in your way  
And you know that it's true  
Wales is not like California in any way  
And everytime I hear hear your music  
You're still thousands of miles away  
California wine is fine...
