

# John Denver, Just A Dream Away

When a dream is born  
A dreamer has to live for more  
Believing what he's never known  
He stands alone

Where a chance begins  
Wherever secret hopes pretend  
Like daybreak on the darkest night  
He'll see the light

It's just a dream away  
You'll know it when you're there one day  
Keep reaching for the world somehow  
There's nothing that can stop you now  
Dream your way  
Dream it all

Years of hope within  
Then feeling what it's like to win  
This dreamer's gonna find a way  
To see that day

It's just a dream away  
You'll know it when you're there one day  
Keep reaching for the world somehow  
There's nothing that can stop you now  
Dream your way  
Dream it all
