

John Denver, Late Night Radio

This song appears on two albums, and was first released on the Windsong album, and has also been

Theres lonely hearts in Arkansas
Theres truckers in Des Moines
All there to keep me company in the early morn
A world unknown to daytime
Is forever going on
The airwaves of the nation
Between midnight and the dawn

Late night radio
Take it everywhere I go
My best friend when Im lonely
Is my late night radio

Well I turn the dial
A little bit past one-o-one point two
In time to catch the news
And see whos shooting who
Then I hunt around for old songs
Theyre so good to hear again
To think of how it was
Imagine how it might have been

Late night radio
Take it everywhere I go
My best friend when Im lonely
Is my late night radio

La La La I sing along
Cause I never know the words
La La La La La La La La
Id love to call a talk show
But I havent got the nerve
La La La Oh Oh Oh radio

The Lord is still my shepherd
But these preachers got to go
This time of night my interest
Lies in U.F.O.s
So I turn the dial a little
Past fifty-six point three
To find myself a lullaby
To rock me off to sleep

Late night radio
Take it everywhere I go
My best friend when Im lonely
Is my late night radio

Late night radio
Take it everywhere I go
My best friend when Im lonely
Is my late night radio

Words and Music by Bill and Taffy Danoff
