

# John Entwistle, Love Doesn't Last

Two names on a screwed up piece of paper  
Two smiles on a photograph, two souls living as one,  
So easy to tear apart

There's no fool like a young fool  
Ain't no school can teach you that cool  
Ain't no love like your first love  
It's gets you here in your heart

I never thought it could end like this  
With my back against the wall, so tall  
Make me wish that the first kiss never happened at all  
You knew from the start, right here in your heart  
That love doesn't last right here in your heart

Forever after is a long long time,  
But the happy ones are blind to the kind of deal they sign  
When your life is on the line  
Now the words have all been said and the tears have all been shed  
And the lawyers fly in lazy circles up above your head

But you still got your heart, they can't take you heart  
You knew from the start, that love doesn't last  
Right here in your heart. Come on and lose it again.  
There's no fool like a young fool  
Ain't no school can teach you that kind of cool  
Ain't no love like your first love  
It's gets you here in your heart

You should have listen, to your heart  
You should have listen, to your heart
