

# John Farnham, Age Of Reason

From the day that we were born we've been heading down a track  
Sometimes it's made for good sometimes for bad  
But if we look behind us there's a wave coming down  
Carrying us forward to a new age

What about the world around us  
How can we fail to see  
And now that our fathers have gone  
And we've been left to carry on  
What about the age of reason

So why can't we be still why can't we love each other  
Is kindness an ancient skill buried by our blindness  
And if we look behind us there's a wind blowing in  
To create the age of reason

If we consider carefully the options put before us  
So much wisdom so much love so much waiting for us  
And if we look ahead there's the sun and the seasons  
Another day another age of reason
