

# John Foxx, Underpass

Standing in the dark  
Watching you glow  
Lifting a receiver  
Nobody I know  
Chorus:  
Underpass  
Underpass  
Well I used to remember  
Now it's all gone  
World War something  
We were somebody's sons  
(Chorus)  
Over all the bridges  
Echoes in rows  
Talking at the same time  
Click click drone  
(Chorus)  
Misty on the glass now  
Rusty on the door  
Here for years now  
Click click drone  
Click click drone  
Click click drone  
Click click drone  
Click click  
(Repeat chorus and fade)
