

John Frusciante, My Life

My life goes blank, my life goes blank
My life goes blank, my life goes blank
My life goes blank

Life was never what you thought.
Life was never what you saw
Life was never what you saw

The lights go out
The lights go out
The lights go out
The lights go out
The lights go out
The lights go out

Life was never what you thought
Life was never what you thought
Life was never what you thought
