

John Kelly & Maite Itoiz, The second coming

When it's snowing on the mountain, on the mountain
Don't despair for way up high
There's a springtime in the making by and by
To reach a star you gotta have a dream
And to have a dream you gotta have strenght
To be that strong you gotta have the will
And this will is within your heart
To reach a star you gotta have a dream
And to have a dream you gotta have strenght
To be that strong you gotta have the will
And this will is within your heart
Hey, hey, hey you have to find the way
Hey, hey, hey you have to find the way
Don't let yourself go down again
Look up the sun will light your face
Let's build our kingdom everyday
Hey, hey, hey you have to find the way
When it's snowing on the mountain on the mountain
Don't despair for way up high
There's a springtime in the making by and by
When it's raining in the valley in the valley
Don't despair for way up high
There's a garden in the making by and by
When it's storming on the high seas, on the high sea
Don't despair for way up high
There's a rainbow in the making by and by
Hey, hey, hey you have to find the way
Hey, hey, hey you have to find the way
Don't let yourself go down again
Look up the sun will light your face
Let's build our kingdom everyday
Hey, hey, hey you have to find the way
Hey, hey, hey you have to find the way
Hey, hey, hey you have to find the way
Don't let yourself go down again
Look up the sun will light your face
Let's build our kingdom everyday
Hey, hey, hey you have to find the way
