

John Legend, Where Did My Baby Go

Where did my baby go?
I wonder where she ran off to
I miss my baby so
I'm calling but I can't get through
Please tell that girl if you meet her
That someone's longing to see her
Where did my baby go?
I wish that she would get back soon (get back soon)

I'm searching for the lover I knew
Have you seen her?
Where did she go?
Feels like I've just lost my only friend
Flames subsided, colors faded
Love just got so complicated
Wish that I could see her smile again
So if you see her out there, tell her I'm still here
Waiting for the day when she will reappear

Where did my baby go?
I wonder where she ran off to
I miss my baby so
I'm calling but I can't get through
Please tell that girl if you meet her
That someone's longing to see her
Where did my baby go?
I wish that she would get back soon (get back soon)

Maybe I was wrong and I
Ignored her for too long and I
Didn't even notice when she slipped away
Maybe while I lay fast asleep then
Out into the night she creeps
I'll leave the light on, so she'll come back someday
So if you see her out there, tell her it's not fair
That life's just not the same when she's not here

Where did my baby go?
I wonder where she ran off to
I miss my baby so
Just what am I supposed to do?
Please tell that girl if you meet her
That someone's longing to see her
Where did my baby go?
I wish that she would get back soon (get back soon)
