

# John Legend, Wild (feat. Gary Clark Jr.)

I just bought a new car  
One where the top goes down  
So we can see the stars  
I wanna take you so far  
Out past the Saturn rings  
And into my heart

I wanna drive you  
Wild /3x  
I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take a wheel  
Make you feel every touch  
I wanna drive you  
Wild /3x

Lay on the passenger's side  
Tell me how fast you want  
We'll get there tonight  
Fire, you set me on fire  
I swear you're the only one  
I'd take on this ride

I wanna drive you  
Wild /3x  
I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take a wheel  
Make you feel every touch  
I wanna drive you  
Wild /3x

Wanna love you  
Wanna touch you  
Wanna driver you  
Wild /3x  
Wanna love you  
Wanna touch you

I wanna drive you  
Wild /3x  
I wanna love you  
For miles and miles  
We can go slow  
We don't need to rush  
I'll take a wheel  
Make you feel every touch  
I wanna drive you  
Wild /3x
