

# John Mayer, Lonely Town

"The best thing about being on the road is that now I can write my big road opus.  
I can write my big song about being on the road, which I couldn't do.  
Cuz every artist has to have that sort of like..."  
I strolled into town on a Friday night  
Another lonely town  
Did I mention that it's a brand new town on this Friday night?  
It's the town that I'm referring to  
When I refer to this town  
The coffee's stale  
And the cigarettes have...tobacco in them  
And...lightening. . .
