

# John Mayer, Outside In The Underground

Violent skies  
10 am  
Falling on my knees again

Outside in the underground  
Proud in the rain

I'm walking a straight line  
Stepped on all of the cracks this time  
I don't care I'm not moving aside  
For anyone

Outside in the underground  
Proud in the rain  
Outside in the underground  
There's no way out of here today

I raise my head up to the sky again  
And make my way alone  
I'm never home  
But I've stopped searching  
Cause the city told me so  
It all comes down  
Down to me

Oh I've got a hundred lives  
Oh I've got to get it right  
Oh who knows someday I might  
Outside in the underground

Underground  
Proud in the rain  
Outside in the underground  
There's no way out of here today

I raise my head up to the sky again  
And make my way alone  
I'm never home but I stopped searching  
Cause the city told me so  
It all comes down  
Down to me

Oh I've got a hundred lives  
Oh I got to get it right  
Oh who knows someday I might  
Oh I've got to get it right
