

John Mayer, Shot in The Dark

It's a hard run
Loving like we do
It takes way too long to get over you
And remember the line we drew
But call me over and I'm coming through

We're searching for the night together
Where we don't fall apart
Might be now and it might be never
It's just another shit in the dark
It's just another shit in the dark

And I wonder what it all means
Strange conversation with you in my dreams
And I don't know what I am gonna do
I've loved seven other women and they all were you

We had a run of bad romance
They always missed the mark
So close your eyes now and take your chances
It's just another shit in the dark
It's just another shit in the dark
