

# John Newman, I'M NOT YOUR MAN

Three years ago when you first met me  
I was just a boy that found it hard to speak  
I couldn't find the words, I had to watch you leave

Now you're coming home to me every night  
I talk you through your bad days, I ease your mind  
I don't want no other woman, but I'm not smart

Oh no no no, cause lately  
We're even getting so close  
Oh baby, we could grow old old old

I'm not your man  
I'm not your man  
I'm not your man  
Oh I'm not your man

Every time I call, you say you have no plans  
Another night together, now a night that won't end  
There seems to be a brighter, can I beat my hands

Oh baby, we're even getting so close, so close maybe  
Oh lately, yeah yeah yeah, we could grow old old old

I'm not your man /4x

Nooo, don't let the dreams out  
Let them move, the streets out y'all  
I know the truth  
Sometimes gotta break (move)  
Your dreams are not alone  
Come home, come home ever again yeah

I'm not your man  
I'm not your man  
I'm not your man  
Will I ever be your man  
Baby, baby  
I'm not your man
