

John O'Callaghan, Out of nowhere

(Feat. Josie)

Save me

Out of nowhere you said

Wait for me, wait for me

And out of nowhere you went

Straight into me, into me

Let me wanting to know

Where do we go, do we go

Somewhere dark and remote

I wanna know, wanna know

Is this real or am I just making this up?

Or will you be my surprise?

Dont wake me up, wake me up

Is this real or you gonna sweep me off my feet

Or am I here foolishly

Waiting for a ghost to come and save me

Save me
