

John Patrick Amedori, Love Song

I remember everything you said
Your voice, pretty colors in my head
Like your favorite color is blue
I paint the whole world just for me and you
(Ch&#oacute;r)
And I know it might sound lame
but you give love a brand new name
I hope you understand whats true
When i say i Love you
It's your turn, my time to wait
Slow down or the walls began to shake
When you smiled, your eyes smiled too
In the dream is how I feel when i'm with you
(Ch&#oacute;r x 2)
And I know it might sound lame
but you give love a brand new name
I hope you understand whats true
When i say i Love you
