

# John Prine, Way Down

Chorus:

Way down  
Way down it must be  
I can't stop this misery  
It must be way down

Spring is just a smile away  
Laughing at a summer day  
Turn around Look at fall  
Winter, hear my lonely call  
Way down ...

The air is thin and the sky is fat  
I'm gonna buy me a brand new hat  
Wear it out and go insane  
Christ, I hope it never rains  
Way down ...

Thought I saw a neon sign  
Flash my name With the time  
Probably didn't see a thing  
Crazy dreams and a broken wing  
Way down ...

How ya' gonna get sunshine  
Peeking thru Venetian blinds  
Don't you know all that fear  
Begins and ends the same place  
Here  
Way down ...
