

# John's Children, JUST WHAT YOU WANT JUST

Your hands and lips  
Always know what I like to feel  
But dont think I cant see that  
Youre trying hard to make me say I want you  
So what's in it for me?

You think that I should be crazy about you  
But I know what life would be with  
Someone like you always hanging around me  
So what's in it for me?

Dont think I dont know just what you want - everything  
Dont think I dont know just what youll get - nothing!

What's in it for me?

Dont think I dont kno w just what you want (just what you want)  
Dont think I dont know just what youll get (just what you want, just what youll get)

Dont think I want you till youve thought of something that  
I may make your love worth while  
What's in it for me?  
Dont think I want you till you've thought of something that  
I may use your luke warm smile  
What's in it for me
