

John Waite, Broken Heart

I heard that she's back in town
Heard she's been seen around
I hear she gets
what she wants everytime
I know what she put you through
I know what you'd like to do
Cause I lost my heart
to her sometime ago
So come on
Wipe your tears away
It's all that you can do
A broken heart never mends
Crying tears til the very end
At home on the boulevard
Cheap whiskey and tarot cards
Man she's outrageous
She wants the best in life
Sugar daddies with agin' wives
She's expensive everything she does
So come on
Wipe your tears away
It's all that you can do
A broken heart never mends
Crying tears til the very end
She knows what it must be like
Living in paradise
If you ain't got money she don't wanna know
I know what she put you through
I know what you'd like to do
I lost my heart to her sometime ago
So come on
Wipe your tears away
It's all that you can do
When you've got a broken heart
Come on
Wipe your tears away
It's all that you can do
Oh yeah
