

John Waite, Laydown

Oh yeah
It ain't the way that you look at me
No nor the way you talk
Could be a dark side coming out of me
But I just like that way that you walk
And I know what you've got is a thing for me
And I want that thing awful bad
Don't mess around
This is too intense
I'm getting hot on the spot
Tell me just to laydown
And stay down
For my love
Laydown
And stay down
For my love
Yeah
Laydown
Could be the way that you're smiling
But I don't think so
Could be the jukebox
But I don't think so
Could be the way the stars are out tonight
We're living in some afterglow
Come on come on
Come on alright
What you've got is what I need tonight
Feelin' good
I feel alright
Come on girl
Don't take all night
Gonna laydown
And stay down
For my love
Laydown and stay down
For my love
This could be the rainbow bridge
Crossing over to Shangri-La
The midnight sky above our heads
You can be who you are
Tell me to laydown
Stay down
For my love
Laydown
And stay down
For my love
Laydown
Come on why don't you
Laydown
Come on come on come on
Laydown
Come on why don't you just
Laydown tonight
Laydown
Come on
Laydown
Yeah
Laydown
