John Waite, Love Don't Prove I'm Right

You used to celebrate it When I came in at 6 AM Ooh babe I could never really fake it Cause I was in love again

Love don't prove Love don't prove I'm right

Love don't prove

Love don't prove I'm right

You used to sing and shout it

Showing me what you got

Ooh babe

I could never really doubt it Cause baby you got such a lot

Love don't prove

Love don't prove I'm right

No no

Love don't prove

Love don't prove

Ooh you used to celebrate

Ooh now you have to wait

You're gonna wait

Love don't prove

Love don't prove I'm right

No no no no no no

Love don't prove

Love don't prove

If you need a hand to guide you

Let me be your northern light

You could give me all of your lovin'

And I'll make everything alright

Love don't prove

Love don't prove I'm right

No no no

Love don't prove

Love don't prove I'm right

Love don't prove

Love don't prove that I'm right

Oh yeah
