John Waite, Midnight Rendezvous

Driving faster than you want me to

Can't help myself when I'm alone with you

Alright

Alright

I've passed the limit and there's no way back

Your kind of love gives me a heart attack

Alright

Alright

Cause baby can't you see

We need to spend some time alone

We need to see some dreams come true

I wanna feel me touching you

We need a midnight rendezvous

On the freeway with the throttle down

You drive me crazy as we drive around

Alright

All night

The way you look tonight you aim to please

The dress you're wearin' is way past your knees

Alright

Alright

Cause baby can't you see

We need to spend some time alone

We need to see some dreams come true

I wanna feel you touching me

We need a midnight rendezvous

Midnight

Midnight rendezvous

Midnight

Midnight rendezvous

Midnight

Midnight rendezvous

Midnight

Midnight rendezvous

Yeah yeah

All I really wanna do

Spend some time alone with you

Yeah

A midnight

(Baby baby can't you see)

(Baby baby you and me)

(Baby baby can't you see)

(Baby baby you and me)

À midnight rendezvous

Yeah

All I really wanna do

Oh I really wanna love you

Oh

Midnight rendezvous
