

John Waite, Special One

I know you're someone's daughter
You know I'm somebody's son
We spent our lives until this moment
Looking for the special one
Nobody gave us the directions
To this life we have to live
Although we've both been taken
We've got so much left to give

So much left to give

I know it's right behind me
The blue highway that I've run
It led me here to find you
It's worth everything I've done
To find my special one
Now I've found my special one
Now I've found my special one

Maybe we won't find the answers
Maybe life is just a song
It may be imagination
But the vision seems so strong
From the first time that I saw you
I knew how it would be
The world is full of wonder
It takes both of us to see

It takes both of us to see

I know it's right behind me
The blue highway that I've run
It led me here to find you
It's worth everything I've done
To find my special one

Now I've found my special one
