

# John Williams, A Guide For The Married Man

What we need in the world today  
Is a guide for the married man  
Some simple thing that in every way  
Would provide for the harried man  
Help him not to worry  
Assist him to relax  
Help him slow his heart rate  
And spare him cardiacs

Such a guide would in many ways  
Turn the tide for the married man  
Enable husbands to fill their days  
As only the married can  
Every man would praise it  
It&#039;s such a splendid plan  
Someday soon we shall point with pride  
To the guide for the married man

By the side of the married man  
&#039;Tis the lady who shares his life  
You help the bride of the married man  
By removing the husband&#039;s strife  
Every wife who&#039;s truthful  
Who treasures married bliss  
Must keep her husband youthful  
What better way than this?

Each and every device we know  
Should be tried for the married man  
But who can question the debt he&#039;ll owe  
To the guide for the married man  
List things universal  
From Pittsburgh to Japan  
And Every man can be satisfied  
By the guide for the married man
