

Johnathan Rice, Kiss Me Goodbye

Like an ugly James Dean I was waiting for you
But I was never what you were looking for
I remember all the days I tasted you on my lips
I was in a haze
I was in a haze

You know it's so hard to let you go
Feeling so down yeah I was low
Leave it to die and then divide
Kiss me goodbye
Kiss me goodbye

Baby make the bed and just destroy it again
Like you always did like you did before
I heard you call my name from the top of the stairs
It'll never be the same
It'll never be the same

You know it's so hard to let you go
Feeling so down yeah I was low
Leave it to die and then divide
Kiss me goodbye
Kiss me goodbye

Does anybody else here feel half alive
Staring out the corner of your eyes

You know it's so hard to let you go
Feeling so down yeah I was low
Leave it to die and then divide
Kiss me goodbye
Kiss me goodbye

So long baby kiss me goodbye
So long baby goodbye
