

# Johnny Cash, Brand New Dance

Baby you're tired I can see in your eyes I know how you feel  
We've been together too long to conceal  
What's in your hearts maybe we should part but after so many years  
That would only bring loneliness sorrow and tears and anyway  
I never could never would never will ever kill what's between us  
So let's try again we'll start a brand new dance between old friends  
There will always be days when it don't seem to pay when it just doesn't rhyme  
Well let's bound to happen some of the time  
Our best days ain't gone we don't need to move on well maybe we could try  
But I don't think you can make it and neither could I and anyway  
I never could...  
Baby come here love ain't disappeared you're just feeling low  
And let me tell you my darling it's a feeling I know  
It don't mean too much we just got out of touch well that's easy to change  
Cause loving you ain't too hard to arrange and anyway  
I never could...
