

# Johnny Cash, Life Goes On

My baby left me just the other day  
I guess the things will never be the same  
But I must forget that she is gone  
Cause time goes by and life goes on

making plans, shaking hands  
try to prove that I'm a man  
It's hard to do but I must try  
cause life goes on and so will I

[Solo: play riff 2 times]

It's been kinda tough these last few days  
trying to act normal and be gay  
It's not easy to be all alone  
but time goes by and life goes on

If I see her anywhere  
I hope she thinks that I don't care  
For after night there comes the dawn  
Yes time goes by and life goes on

[Outro: once the riff and fade out]
