

Johnny Cash, Shepherd Of My Heart

You're the shepherd of my heart so treat it tenderly
It's a heart that needs your everloving care
You're the shepherd of my heart until eternity lead it not into the valley of despair
While it's in your keeping guard it with your love
Shelter it from harm along life's way
You're the shepherd of my heart and darling honestly
It's a heart that will not ever go astray
You're the shepherd of my heart so surely you must know
You have but to speak and my heart will obey
It's at your command my dear because it loves you so
So my darling shepherd guide it where you may
If it be green pastures or a rocky road it will follow you and not ask why
You're the shepherd of my heart until the trumpet blows
And I go to meet the shepherd in the sky
