

Johnny Horton, Goodbye Lonesome, Hello Baby

I've been here for a long long time waitin' all alone
Waitin' here in this old house by the telephone
Sittin' in this same old chair lookin' out to blind
There ain't been a day gone by that she ain't on my mind
Goodbye lonesome hello baby doll goddbye lonesome you almost drove me wild
Well I feel a little trickety on the line she's done told me she's mine oh mine
Goodbye lonesome hello baby doll

[guitar]

When she is here I'm tellin' you we're gonna celebrate
And all those hugs and kisses you couldn't count a late
When she holds me I can't explain the way I feel inside
Goodbye you old lonesome I got myself a bride
Goodbye lonesome...
