

Johnny Horton, She Knows Why

I have a story I'd like to tell broken heart's knowin' only too well
And she knows why I feel the way I do
She gave me all her love and then she took it away blue sky has turned to a solid grey
And she knows why I feel the way I do
Well I know I'm a walkin' down the lovesick trails been walked down by many before
But when she sees my side of tracks she'll know I've learned the score
I'll pick my tears put 'em on the shelf keep my heartaches to myself
Cause she'll know why I feel the way I do
[guitar]
When she finds somebody new then he'll find out what I went through
Cause she knows why I feel the way I do
She gave me her love and then she took it away blue skies had turned to a solid grey
And she knows why I feel the way I do
Well I know I'm a walkin'...
