

Johnny Tillotson, My Little World

You went and left me you left me and there was nothing I could do
You went and left me you left me and and broke my little world in two

I never thought you'd be the kinda girl to do that
To run around with other guy in town
You took my little world and smashed it into pieces
And you turn the happy smile into a frown

It wasn't right it wasn't fair it wasn't like you
It wasn't like the girl I once thought I knew
You used to be so sweet and gentle and I loved you
And you used to whisper that you love me too

But then you left me you left me...
[guitar + strings]
It wasn't right it wasn't fair...
But then you left me you left me...
Yes you broke my little world in two
Oh you broke my little world in two
