

Johnny Tillotson, Please Don't Go Away

Please don't go away let me hold you in my arms
Let me kiss your lips and thrill to your charms
Please don't go away please don't go away
I could never find find a precious love like yours
Won't you hurry to my arms and stay
Please don't go away please don't go away

If I could call you mine little girl
Every dream I'll dream will come true loving you little girl
If only you would care say you'll care little girl
Please tell me that you'll stay
Please don't go away please don't go away
[piano]
If I could call you mine little girl...
Please don't go away please don't go away
