

Johnny Tillotson, That's When It Hurts The Most

(That's when it hurts the most)

I can't erase the mem'ry of the night you said goodbye
And when I pass you on the street I want to cry
But when I see you out with somebody new
That's when it hurts the most

It breaks my heart each time I read the note you left for me
And your picture makes me lonely as can be
But when I see you holding somebody new
That's when it hurts the most

Never never thought I'd miss you
But it's heartache heartbreak my whole life through

It makes me cry each time I think of how you once were mine
And I think about it darling all the time
But when I see you kissing somebody new
That's when it hurts the most
That's when it hurts the most
