Johnny Tillotson, That's When It Hurts The Most

(That's when it hurts the most)

I can't erase the mem'ry of the night you said goodbye And when I pass you on the street I want to cry But when I see you out with somebody new That's when it hurts the most

It breaks my heart each time I read the note you left for me And your picture makes me lonely as can be But when I see you holding somebody new That's when it hurts the most

Never never thought I'd miss you But it's heartache heartbreak my whole life through

It makes me cry each time I think of how you once were mine And I think about it darling all the time But when I see you kissing somebody new That's when it hurts the most That's when it hurts the most
