

Johnny Tillotson, True True Happiness

True true happiness will folow
True true happiness will folow if you'll only follow
True true happiness will folow if you'll only follow me yeah yeah

When you're feeling lost inside let my true love be your guide
True true happiness will follow if you'll only follow me yeah

True true happiness will folow...

Come with me and find the way you can trust me when I say
True true happiness will follow if you'll only follow me yeah

True true happiness will folow...

Let me lead you like a steady take my hand and say you're ready
True true happiness will follow if you'll only follow me yeah

True true happiness will folow...
