

Johnny Tillotson, Without Your Sweet Lips On Mine

Deep inside I love you so
My heart would break if you should go away
And leave me standing there alone
Without your sweet lips on mine

All my friends keep telling me
That I'm a fool you'll set me free they say
That girl don't change so I'll be alone
Without your sweet lips on mine

Give me your love if you've got love to give
And I'll give you my love for as long as I live
Then they'll know they would lie
A girl can change if she's a mind to change
I won't be standing there all alone
Without your sweet lips on mine

Give me your love if you've got love to give...
Without your sweet lips on mine
Without your sweet lips on mine
