

# Johnossi, Send More Money

All I can do is just send more money  
But it ain't love, it ain't love  
A voice on the phone telling me to take care of my family  
But it ain't love, it ain't love

What if I'd throw my heart in a cage  
And send it back home to your address  
Will I earn more time to earn more money

I said all I can do is just send more money  
But it ain't love, no it ain't love  
Can't sleep at night cause I do worry about you honey  
And the boy, what about the boy?

I throw my heart in a cage  
And send it back home to your address  
Will I earn more time to earn more money

I hear the school bell ring  
Class is running out from rehearsals  
And I'm the only one in the corridor that's left  
But when I look back now at everything I thought back then  
I thought I'd have more time now to sit back and relax  
But instead sometimes I just feel insane

But if I throw my heart in a cage  
And send it back to you  
Will I earn more time just to earn more money?

Money
