

Joji, NIGHT RIDER

Tell me how you wake up, I just wanna wake up
UFO again, doesn't matter what it takes up
Crazy in the dome, baby, can I get a heads up?
Girl, they tried to break us, girl, they tried to break us
Wanna get away, would you tell me your location?
Feels like yesterday, I remember I would stay up
Baby, can you say somethin'? Wanna feel sensation
Promise you I'll never get numb, I'm too precious

I'm too precious, I'm too precious
I'm too precious, I'm too precious

Burning forever and ever, fully blazing
I don't remember no better days
You know I'm waiting just whenever, just whatever
Burning forever and ever, fully blazing
I don't remember no better days
You know I'm waiting just whenever, just whatever

I'm too precious, I'm too precious
I'm too precious, I'm too precious
