

# Jon B, Inside

What cha cookin' baby  
Smells so good lady  
Girl you got me craving  
For your love

Baby you are crazy  
It never ceases to amaze me  
What I'm about to be tasting  
But I'mma take my time  
(Girl tonight)

Your body gets warm  
Freaky conversations  
No touching just talk  
Thinking about the things we're gonna do

Tonight we'll make it rain  
Down inside when I kiss you goodnight  
We can go for a long time

Promise you to pace  
Myself not to waste  
I like to see your face  
This is your place  
(I like it when it's all the way inside)  
All the way inside  
Promise you to pace  
Myself not to waste  
I like to see your face  
This is your place  
(I like it when it's all the way inside)  
All the way inside

Baby put your glass down  
Let me kiss all around  
I like the way you make the sound  
When I touch the spot baby

Over to the bedroom  
Only light is the moon  
The small of your back is shiny too  
You're so sexy when you sweat boo

Tonight we'll make it rain  
Down inside when I kiss you goodnight  
We can go for a long time

Feels so amazing  
That's why I'm pacin'  
Myself with you  
Cause you are beautiful  
When we come together  
We will see the flight to heaven  
Oh yeah, oh yeah

Promise you to pace  
Myself not to waste  
I like to see your face  
This is your place  
(I like it when it's all the way inside)  
All the way inside  
Promise you to pace  
Myself not to waste  
I like to see your face

This is your place  
(I like it when it's all the way inside)  
All the way inside

Come on, come on  
I like it when it's all the way inside  
I like it when it's all the way inside
