

# Jon B, Isn't It Scary

I know a place  
Where we can get it on good, baby  
As far away, baby  
From the world and all the city lights  
If you're not scared to get away  
From the normal things  
From the normal dreams  
And you're not thinking  
About your man at home  
Just me and you alone  
Ain't it scary, baby

[Chorus:]  
Isn't it scary  
How you're here with me  
And not with your man at home  
Isn't it scary  
How you're here with me  
And not with your man at home  
Me and you alone

And baby, baby, baby, baby  
Don't you see this love runs deep in me  
Pretty lady, oh girl  
I feel too good to feel guilty  
I'm sorry for nothing  
Except that I'm not with you for good  
And if I could, if I could, yeah  
Oh make you mine, oh mine  
Now aren't you scared

[Chorus:]  
Isn't it scary  
How you're here with me  
And not with your man at home  
Isn't it scary  
How you're here with me  
And not with your man at home  
Me and you alone
