

# Jon B., Let Me Know

Girl I knew the first tme  
That I saw your pretty eyes  
It was gonna take a damn good line  
To make a girl like you surprised  
I knew you were a woman with cladd  
But way doem to earth  
I could tell by the way  
You let them down easy  
When the other guys try to flirt and I'd do

Bridge:  
I would do anything for your love  
I would go anywhere for you touch  
And I would go anywhere anywhere with you

Chorus:  
Just let me know the deal  
Could you fall in love  
Just let me know for real  
Could you feel the same  
Just let me what you feel  
Could you fall in love  
Just let me know  
Would you let me know  
The deal with you baby  
I said never never stop oh no  
On on on and on  
To the break of dawn baby

Let's just take it easy in the corner of the VIP  
It was just you and me  
Not just dancing just glancing  
Into each other's eyes  
Now you see that I would do anything

Bridge:  
I would do anything for your love  
I would go anywhere for you touch  
And I would go anywhere anywhere with you

Chorus:  
Just let me know the deal  
Could you fall in love  
Just let me know for real  
Could you feel the same  
Just let me what you feel  
Could you fall in love  
Just let me know  
Would you let me know  
The deal with you baby  
I said never never stop oh no  
On on on and on  
To the break of dawn baby
