

# Jon B, Sof'N Sweet

You peeped me at the stop light  
x5 polished twenties rolin' tight  
I was wildin' out my sunroof  
On my way to the roller rink  
Get my skate on tonight

Said baby can you follow me  
Down the street  
Show you were the party's live  
(Ooh ooh ooh baby, ooh ooh ooh)  
Gotta fresh cut  
And you got your hair done  
We both clean and lookin' fine  
I watch you roll so...

Sof'n sweet  
Lookin' like she might be available  
Sound good to me baby  
To get close with me  
Maybe I'll just stand here watch her break it down  
Break it down for me  
Sof'n sweet  
Lookin' like she might be available  
Your gonna ride with me  
Close with me  
Maybe I'll just stand here watch her break it down  
Break it down for me

Cause I'm liking what I see up in this mug  
With my family  
We got the whole rink to ourselves  
Just me and my peeps going around clowning  
(You know we clowning)  
Kinda like the night when everythings alright  
Red and blue sparkling light disco balls spinning round we rollin' tight  
And everything that you do makes me want to ride  
Do something something sof'n sweet tonight

Sof'n sweet  
Lookin' like she might be available  
Feelin' ya wanna come with me  
Close with me  
Baby I just stand there watch you break it down  
Break it down for me  
Sof'n sweet  
Lookin' like she might be available  
Thinkin ya wanna come with me  
Close with me  
Maybe I'll just stand there watch her break it down  
Break it down for me

Look atcha dancin'  
Girl you're so fine  
Just have to see and talk to you  
I don't see you with a man  
Hope you're not taken  
Here goes nothing

Go ahead show me how you do that

You push that left hip in  
You push that left hip out  
Poke out that love so I can see  
Then you turn that love around

So sof'n sweet you do  
When you do you turn it out  
That's what it's all about

You push that left hip in  
You push that left hip out  
Poke out that love so I can see  
Then you turn that love around  
So sof'n sweet you do  
When you do you turn it out  
That's what it's all about

Sof'n sweet  
Lookin' like she might be available  
Me and my peeps goin' round tonight  
Close with me  
Baby I just stand there watch you break it down  
Break it down for me  
Sof'n sweet  
Lookin' like she might be available  
Turn that love around  
Close with me  
Baby I just stand there watch you break it down  
Break it down for me

[Chorus]
