

Jon Batiste, Be Who You Are (Real Magic, feat. J

Lonely one, out there on an eagle's wings
You're bringing something they can't bring
And singing something they can't sing
I know it's lonely when saying something they ain't heard
Want to share a mumbling word
But just follow me and we will learn

That you can only be who you are
That's just who I am, that's just my radio
That's just who I am, that's just my video
That's just who I, I, I am, I, I, I can't pretend 'cause I know
You can only be who you are
That's just who I am, that's just my radio (My radio)
That's just who I am, that's just my video
Wherever you are, real magic
You can only be who you are

Look, all short days turned to long nights
I don't take breaks, I don't buy the hype
We done made the way but no time to waste
There's no wait in line, stay place your wager
Bet on little buddy, betting safer
Melancholically cool calm behavior before the thunder rains storm the pavement
I grew some wings that we could fly away with
Do the things that you can't explain and find a way to get outside the maze
What we made of? On the cusp but doing something greater, unafraid
Been over all the underestimation, don't get mad at your imagination
If it's real magic, you ain't gotta chase it

You can only be who we are
That's just who I am, that's just my radio (Ooh)
That's just who I am, that's just my video
That's just who I, I, I am, I, I, I can't pretend 'cause I know
You can only be who you are
That's just who I am, that's just my radio (My radio)
That's just who I am, that's just my video
Wherever you are, oh Lord
You can only be who you are

Ajá, voy, que venga to'l mundo a ver
Cuando estoy contigo es mi cosa preferida (Ajá)
Que la vida es más grande mientras más es compartida (Ajá)
Que cuando estamos juntos, mi vida
La magia no termina

[Chorus: All, Camilo, Jon Batiste]

We can only be who we are
That's just who I am, it's just my radio (Ooh)
That's just who I am, it's just my video
That's just who I, I, I am, I, I, I can't pretend 'cause I know
You can only be who you are
(Radio, radio, radio)

Can't pretend, I can only be
That's just who I am, that's just my radio
Eso es lo que soy yo, real magic
That's just who I am, that's just my video
(Real magic) Where you are

We can only be who we are
