

Jon Bon Jovi, Come Back

Now that you're gone, I can see what
Was going on and how you lied
When you'd said you'd never love again
Friends telephone and they say
You weren't out alone last night
Can't you see that this broken heart
Is killing me
Another night is falling
And now my heart is calling you back to me
Chorus:
Come back cause I need your love
Come back got to have your love
Come back bring your loving back to me
Come back cause its been so long
Come back, and my love's still strong
Come back bring your loving back to me
You play with words play with love
Its just your silly way
I'm a fool cause I need you by my side again
Now its too late you walk by
With another man
And I stand alone
Cause I know that you're not coming home
Another night is falling
And now my heart is calling you back to me
Chorus
Another night is falling
And now my heart is calling you back to me
Chorus
