

# Jon Bon Jovi, Come Back

Now that you're gone, I can see what  
Was going on and how you lied  
When you'd said you'd never love again  
Friends telephone and they say  
You weren't out alone last night  
Can't you see that this broken heart  
Is killing me  
Another night is falling  
And now my heart is calling you back to me  
Chorus:  
Come back cause I need your love  
Come back got to have your love  
Come back bring your loving back to me  
Come back cause its been so long  
Come back, and my love's still strong  
Come back bring your loving back to me  
You play with words play with love  
Its just your silly way  
I'm a fool cause I need you by my side again  
Now its too late you walk by  
With another man  
And I stand alone  
Cause I know that you're not coming home  
Another night is falling  
And now my heart is calling you back to me  
Chorus  
Another night is falling  
And now my heart is calling you back to me  
Chorus
