

# Jon Bon Jovi, Without Love

She wasn't young, but still a child  
There still was innocence  
In painted smiles  
She called to me as I past her by  
Lady of the night looked into my eyes  
She said: I have been through some changes  
But one thing always stays the same

## CHORUS

Without love, theres nothing without love  
Nothing else can get you through the night  
Nothing else feels right without love  
I saw a man down on lonely street  
A broken man who looked like me  
And no one knows the pain he's been living  
He lost his love and still hasn't forgivin  
He said: I've been through some changes  
But only one thing always stays the same

## CHORUS

Without love, there's nothing without love  
Nothing else can get you through the night  
Nothing else feels right without love  
There's nothing without love  
Nothing else but love can burn as bright  
And nothing would mean nothing without love  
I see my life  
There's some things I took for granted  
Love's passed me by  
So many second chances  
I was afraid  
But I won't be afraid no more

## CHORUS

Without love, there's nothing without love  
Nothing else can get you through the night  
Nothing else feels right without love  
There's nothing without love  
Nothing else but love can burn as bright  
And nothing would mean nothing without love
