

# Jon Cleary, Got to be more careful

Got to be more careful when you walk the street alone  
Cos hiding in the shadows might be the devil you don't know  
Got to be more careful, everything you say  
Don't wanna hear your words repeated  
All twisted round the other way  
You can't even see  
what they want from you and me  
Can't believe a word they say  
Can't believe the things they do  
Can't believe they're getting away  
With what they do, they do  
Messing over me and you  
Got to be more careful people  
Got to be more careful now  
Got to be more careful people  
Got to be more careful y'all  
Got to be more careful with all your don's and do's  
Be on your best behaviour watch your p's and q's  
Got to be more careful when you're chatting on the phone  
You don't know who's listening  
And what they got going on  
Got to be more careful people  
Got to be more careful now  
Got to be more careful people  
Got to be more careful y'all  
You can't even see  
what they want from you and me  
Can't believe a word they say  
Can't believe the things they do  
Can't believe they're getting away  
With what they do, they do  
Messing over me and you  
Got to be more careful people  
Got to be more careful now  
Got to be more careful people  
Got to be more careful y'all
