

Jon Secada, Time Heals

I love you
It'll never be the same, not this way again
With someone new, but someone new
Will just have to do
Cause you never loved me at all
You told me yourself

Why'd you stay with me baby
You let me take the chance, left me making plans
For nobody, nobody
You said you were waiting
For your heart to fall in love
But you never loved me at all
I was just your friend that's all
But they say...

Time heals all wounds
I guess you made up your mind baby
Time heals all wounds
I hope that time can heal my heart
Heal my broken heart...

Cause I loved you
And I was true
You know I've been carrying a failure's cross
I did everything to win your heart
But you never loved me at all
I was just your friend that's all
But they say...

Time heals all wounds
I guess you made up your mind baby
Time heals all wounds
I hope that time can heal my heart

And what of the nights
When you looked in my eyes
And you told me that you loved me
You made feel in my heart
It was real not a spark
But a flame burning inside
Who can put out this fire inside

Time heals all wounds
I guess you made up your mind baby
Time heals all wounds
I hope that time can heal my heart
