

# Jonas Blue, I See Love (ft. Joe Jonas)

this is such a perfect place  
I'm glad I found this with you  
our love reflected in your face  
only heaven can beat this view

come on  
let's run and get lost in the crowd  
into the light as the night's coming down  
I'm double tapping  
I'm focusing now  
we're focusing now

I see love  
I see love around me  
from a river to a flood  
I see love around me

all of you help me  
find my heart  
I didn't even know my name  
then I was blinded by the dark  
my eyes will never look the same

come on  
let's run and get lost in the crowd  
into the light as the night's coming down  
I'm double tapping  
I'm focusing now  
we're focusing now

I see love  
I see love around me  
from a river to a flood  
I see love around me  
I see love  
I see love  
from a river to a flood  
I see love around me

come on  
let's run and get lost in the crowd  
into the light as the night's coming down  
I'm double tapping  
I'm focusing now  
we're focusing now
