

Jonathan Davis, Elex

I

I will not give in
Embrace the pain within
It drives my urge to win
And I feel
And I feel like I'm gonna die
Not a chance in the world I would ever try
To suppress all the hate that I have inside
So I will have survived?

I'm not afraid to die
Got the prize inside
Nothing will stop my drive
And I'll fight
Till the end of time
Nothing will undermine
The hate I have inside

Free
Emotions step inside
The longer it can hide
It loves to learn to fight
And I feel
And I feel like I'm gonna die
Not a chance in the world I would ever try
To suppress all the hate that I have inside
So I will survive

I'm not afraid to die
Got the prize inside
Nothing will stop my drive
And I'll fight
Till the end of time
Nothing will undermine
The hate I have inside

Look at them looking down
Gotta take away
Take a chance
With the sound passing under me
Look at them looking down
Gotta have to say
Never stop i'm never safe
Now don't be sure to get away

Look at them looking down
Gotta take away
Take a chance
With the sound passing under me
Look at them looking down
Gotta have to say
Never stop i'm never safe
Now don't be sure to get away

Everything dies
Everything dies
Everything dies
Taking me out
Everything dies
Everything dies
Everything dies
Everything dies
Taking me out
Everything dies
Everything dies

Everything dies
Everything dies
Everything dies
Everything dies
Taking me out
Taking me out
Taking me out

I'm not afraid to die
Got the prize inside
Nothing will stop my drive
And I'll fight
Till the end of time
Nothing will undermine
The hate I have inside
